*Celebrating 15 Years of Service*  
2008 - 2023

# Patient Success

In 2008, I was a single mom of a 3-year-old son with no significant education, employment, or family support. The VOICe counselor insisted that I needed welfare and that it was a hand-up, not a handout. My primary goal was to attend Butler County Community College (BC3) to become a registered nurse.

I was accepted into the BC3 Nursing Program through hard work and dedication to my courses. The program required an annual physical exam and vaccinations. I presented to the Butler Community Health Center. The clinicians were courteous, kind, respectful, and nonjudgmental. The staff created an inviting environment for care. During two years of nursing school, I received examinations and vaccines at no cost. The only request that was made of me was to become a good RN.

**With the help and assistance of the  
Community Health Center,  
I was able to graduate from  
BC3 Nursing School Program in 2011.**

I have gravitated to those needing my skills the most and pay it forward every chance. I currently have the Community Engagement & Partnership Coordinator position at the VA in Butler, providing suicide prevention training, education, and resources for five counties. I was awarded a scholarship through the VA in 2018 for my masters.

I finished my MSN in Administration with Leadership from the University of Phoenix with a 3.7 GPA.

I provide a hand-up daily and never forget those who have helped me. I go to work with a smile and goodness in my heart, and I am very thankful I am employed in a career that allows me to give back.

Now you might be wondering why I am writing this letter. The Community Health Center does not consistently get recognized for its excellent work.

**Please know**

**I am one of your success stories!**

I would have never become an RN otherwise. I tell everyone who needs to hear it that a hand-up pulls you in a positive direction for those strong enough to grab on.

**The Community Health Center had a  
hand in making a nurse  
who makes a difference  
on the front line daily.**

**Your kind, supportive approach will  
always be remembered.**

**Sincerely,**

**Samantha L. McCandless, MSN, RN, CEPC**

FOR YOUR CONTINUED GUIDANCE AND SUPPORT**

# Executive Director

I hope you found our **2022 Impact Report** informative. The focus of this report is to bring attention to the **positive impact** the Jean B. Purvis Community Health Center provides each day through the multitude of services we offer. The Center offers medical, dental, vision, behavior health, and health and wellness services that touches the lives of many in need. The mission and goal of the Center is to bridge the gaps in healthcare and transition our patients to the available insurance products and local providers as they regain strength and stability.

This year the center is proud to have partnered with Dr. Michael Higgins and Dr. Claudia Gonzalez from Sterling Eye Care to provide vision as a new service. The center has had an overwhelming response from the patients needing eye care. Through our relationship with New Eyes we are able to provide free glasses to our patients.

Our dental services have had tremendous growth this year. We now have 7 dentists who serve our patients. As we continue to expand, we are in the process of creating a third operatory to care for our dental patients.

I continue to be inspired by the dedication of our volunteers, board members, practitioners and staff members who continue to demonstrate their unwavering support to the Center and the patients we serve. Thank you for giving of yourself and making an impact on Butler and the surrounding communities.

This **Impact Report celebrates 15 years** of providing care to the residents of Butler County. We are proud of what we have accomplished through the extraordinary generosity of our donors and corporate sponsors.

Thank you for believing in the Community Health Center and allowing us to continue to impact the patients we serve.
